

Who will stand with us for our students and our schools?

cta.org/campaign

#WeAreCTA
#VotePublicEd

Students are at the center of everything we do... including electing decision makers that will stand up for public education!

- We need to elect pro-public education candidates who will invest in well-funded, quality public education for our students and our profession.
- **Tony Thurmond & Gavin Newsom** are public school advocates who will promote safe, stable, and supportive neighborhood schools for all of our students.
- They believe students deserve highly-qualified teachers who are treated as professionals (professional pay, due process rights, secure retirement)!

*Tony Thurmond is the best choice for our students for **State Superintendent of Public Instruction***

The opponents would be harmful to our students. They are backed by the same wolves who use secrecy, deception, and want to take money from our neighborhood schools.

- They have ties to anti-public education billionaires like the Koch brothers and Betsy DeVos.
- They support unregulated charters and privatization.
- They want to weaken our secure retirement.
- They want to eliminate our due process rights.
- They want to take away our freedom to stand together in union and negotiate a fair return for our work.
