Each full-time teacher at KCRA shall teach no more than six (6) grade/subject levels at a time, unless by mutual consent of the unit member and site administrator. Part-time teachers shall be responsible for no more than the proportional amount of grade/subject levels (for example: an 80% teacher shall have $.80 \times 6 = 5$ grade/subject levels).

Unit members who teach KCRA Lab Classes shall have no more than twenty (20) students scheduled in each Lab Class time period. Part-time teachers shall have no more than the proportional amount of PLP students (for example: an 80% teacher shall no more than $.80 \times 28 = 22$ students). This PLP limit may be increased by up to two (2) students. The unit member shall be compensated the amount of thirteen dollars (\$13) per student per week for each PLP student over the limit. Any additional students above thirty (30) shall be only with unit member consent and VTA approval.

For the purposes of PLP student contact time, the following shall be implemented for each student:

The advisory period is another period of instruction and students enrolled in an advisory period shall count toward each teacher's total contact limit of no more than one hundred seventy-five (175) students.

Each class period and advisory period may have not more than twenty-five (25) students enrolled at a time.

All KWRAP unit members shall have fifty-five (55) minutes of unencumbered preparation time daily, before the instructional day.

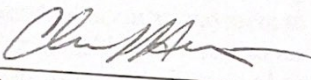

On Mondays, Wednesdays and Fridays, there shall be thirty (30) minutes of unencumbered preparation time provided to each unit member after the instructional day. The exception to this would be if a night activity was held during the week (like Back-to-School night, or similar), then Friday would be a minimum day and all unit members' duty day would end at the end of the instructional day.
